Subj: Family nights were like potlucks. A couple times got together in evening and played wash boards. Maj Scarselli would offer underage Marines nonalco beverages. Never saw Maj Scarselli do any hazing or fazing. Known Baker for many years. He is real egotistical. Evens took over as the Kennel master after Baker left. Baker lied to Evans about location of air conditioners. Does not think Maj Scarselli would ever borrow money from enlisted Marines.

Subj: Chasity Begg and MGySgt Humberston were having an affair and Humberston told her not to talk about it. She knows that Scarselli knew nothing about this affair. She thinks Maj Scarselli had good intentions with the family night. His intention was to bring the Marines at PMO together because everyone disliked everyone and nobody got along. PMO had a history prior of stabbing people in the back. Previous Provost Marshall didn't care about Marines. She is guilty as well for not doing training. MGySgt Humberston had training write down PFT scores for everyone in December 2008. She knows that Humberston did it. Baker pulled her into his office and said "MGySgt said just run scores. There was ten of us." She knows herself and few junior enlisted did not run and got scores. She does not think Maj Scarselli would do something like that because she saw him PTing. He didn't have a reason to not run it. She saw him PTing on his own.
