

Arrow General Supplies Company, Ltd. is a 100% Afghan-owned and operated firm with a sterling record of success in meeting our requirements and consistently delivering products and services ahead of schedule at or under budget.

We fully intend on building on our history of success so we can continue to be a catalyst to a sustainable Afghan economy in the decades to come.

Established in 2003, Arrow is licensed by the Afghan Government through the Afghan Ministry of Commerce and Afghan Investment Support Agency (AISA). We have supported various public and private sector entities supporting Operation Enduring Freedom, we have built a reputation of delivering quality services for mission-critical efforts throughout Afghanistan.

The scalability of our operation is vast and mutually beneficial, not only to the American and Afghan governments, NATO and Coalition Forces, but also to the Afghan people in providing solid jobs and training in a well-managed business environment. We have numerous departments and divisions, as we are a multi-faceted company and hire, train, retain and employ qualified personnel country-wide to include a sizable female staff.

Our Petroleum Products:

- Diesel
- JP8
- MOGAS
- Propane (LPG)

Services Overview

Fuel: Last year alone we provided over 150 million liters of petroleum-related products and serviced over 78 sites throughout all 34 Afghan provinces, while maintaining storage facilities throughout the country, giving us a unique capability to distribute over 5 million liters to any given location within just a matter of days. We have developed an internationally acceptable anti-theft fuel program in Afghanistan in which we currently supply the U.S. Military. Additionally, we maintain a National Transport Clearance Certificate, which allows us to transport government purchased fuel anywhere in country.

Apparel: We have successfully completed over 70 million dollars in contracts, 4 operational factories, capabilities to execute any apparel request (head-to-toe, all-terrain and weather, force-protection based) for the Afghan National Army, Afghan National Police, United States Military, NATO, Coalition Forces, Civilian entities and more.

Supplies: Local, regional and international procurement and delivery at minimal costs, with expedited scheduling. Arrow is a preferred vendor to numerous companies providing goods required by U.S. & Coalition forces and has been providing this service since 2003.

Construction: Our on the ground assets, financial strength and professional staff take on the largest of projects in Afghanistan. From architecture and design to engineering, to road repair and facilities stand-up to renovations and other full life-support needs, our staff covers it.

Logistics: Our current country-wide fleet of trucks and support vehicles are supported by a staff of in-house dispatchers and vetted local nationals are trained and tested prior to assignments. Our logistical capabilities allow us to receive and/or mobilize your cargo at your request.

Warehousing: We maintain secured facility options in Kabul, Herat, Kandahar and Mazar-e Sharif, which can be used to store bulk and precious cargo, cold-storage (FMS) and other.

Vehicle/Equipment Leasing: While supporting a wide range of equipment and mobility demands required to navigate the many terrains of Afghanistan, we supply armored and non-armored vehicles from Land Cruisers to Earth moving and heavy machine equipment.
