If a NPLOC is an option, then I would recommend that in order to avoid NJP.

Sir,

That is LtCol Rhett Vranish, the CO of MWHS-3. Also, other options lower than CG's NJP include a non punitive letter of caution which would allow him to potentially continue with his career. Thank you again for your time.

Ok...got it. I read the other email first.

I recommend that while lying to a board is conduct unbecoming, in my opinion, a felony conviction is extreme as punishment.

Simply taking Capt Wacker to NJP is just, and I would even recommend that it be lower than CG NJP if that is possible. Who is the next in line beneath Gen Conant on the COC that Capt Wacker works for?

Sir,

I'm following up on the recommendation that you made in open court last week that Capt Wacker's conviction be set aside. Mr. Faraj and I are in the process of putting a package together to present to MajGen Conant to formally ask that Capt Wacker's conviction be set aside and that Capt Wacker not be administratively separated from the Marine Corps. I wanted to give you the opportunity to individually provide MajGen Conant your own clemency recommendation that we can include in our package. While we would prefer a letter, even a quick e-mail back would be appreciated. Thank you for your time, attention, and patience during the trial.

I had sent this email to the other members previously.
