**Phone system; \$86.98 per month for 12 months; no up-front investment**

Desk Phone: \$9 a month each for 12 months  
Cordless: \$12 a month each for 12 months

**Two complimentary phone lines for a year with each Phone System Base Unit!**

**Quality guarantee: If you are not totally satisfied, return everything within 30 days for a complete refund. Phone Equipment is covered by a 1 year warranty.**

With AccessLine's Digital Phone Service and System, you can simplify your business phone purchase and installation process, while saving your business money. The purchase process is easy; we ship the equipment within 7 days of your order, and you can set it up and make calls in minutes! No need to pay over \$1,000 up front as other phone equipment vendors require; we offer an easy 12 month installment payment plan, for all phones, that amounts to only a few dollars a day.

**Save hundreds of dollars in up-front equipment costs.** Buy our professional phone system solution, with over 50 features, and pay in 12 easy monthly installments. Most phone system providers require upfront payment; we offer installment payment with 0% interest.

**Receive 2 lines of complimentary phone service for 1 year\*, a \$886.80 value,** including 3,000 Long Distance minutes each month; an \$886.80 value! (Additional lines of service available at \$36.95 each with unlimited Long Distance minutes included.)

**Eliminate Installation Headaches.** Call us today, we'll mail you your equipment in 7 days or less. You plug it in, and in minutes, you are making phone calls. **Deal with 1 company, not 2 or 3.** No need to buy your equipment from one vendor and your phone service from another; this package includes everything you'll need!

**Buy Only What You Need.** Purchase only the phones you need now, purchase more (up to 50 desk phones and 3 cordless phones at any one location) as you need them with the same easy installment payments featuring 0% interest. Desk phones cost only \$9.00 per month and cordless phones only \$12.00.

**Buy with Confidence.** We have served over 100,000 business clients, including Fortune 100 companies, for over 20 years. We offer a complete no risk, quality guarantee.

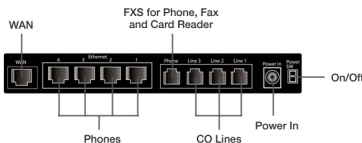

**Keeping it Simple: Business Desk Phones with No Wiring Hassles.** This system supports up to 50 Desk Phones and 3 Cordless Phones at any one location. The Desk Phones feature a menu-driven screen allowing you to control all your calling features from the phone. The optional wireless adapter, for a one-time \$44.95 charge, plugs into the Desk Phone and into any power socket. This gives you wireless freedom to move your Desk Phone around your office without worrying about phone wiring. And, YOU choose how many phones (up to 50 desk phones and 3 cordless phones at any one location) you want.

**Expands with Your Business.** Since you're buying a phone system rather than individual phones and extensions, it's easy to increase the number of people you support without increasing costs. Buy 2 or 3 phones now, and buy additional phones later without having to buy more phone lines! What's more, we'll provide the same easy installment purchase plan for your additional phones in the future.

**To Learn More or To Order, Call 1-800-411-3112**

• When you purchase the optional base unit.

## Easy 2 Step Setup

### 1. CONNECTING THE OPTIONAL BASE UNIT

- Plug the power cord into the base unit;
- Plug the blue wire into a free port on your router;
- Plug the other end of the blue wire into the WAN port on the back of the base unit;
- Turn the power on the base unit (located at the bottom)

### 2. CONNECTING THE DESK PHONES

- Plug the handset phone cable into the handset;
- Connect the power adapter to the phone;
- Plug the black cable into the port on the back of the phone, and the other end into the back of the base unit or your router

- Transfer to Voicemail

## Configuration

The AccessLine Digital Phone Service uses the internet to receive and deliver your phone calls. Setup just takes a few minutes and only requires you to plug your desk phones and optional base unit into your existing router. Within minutes you are making and receiving phone calls.

## Porting Your Current Number

Want to transfer your current business phone number to this service? With AccessLine Digital Phone Service and the Vertical Xcelerator, you don't miss a call. Simply plug your current phone line into one of the CO ports when your Vertical Xcelerator arrives, and it will continue to work for the duration of the porting period. Then notify your current service provider you wish to port the number, which will take a few weeks; once your current carrier ports the number, cancel that line, and save the monthly charge!

## About AccessLine

AccessLine Communications provides hosted VoIP services for the business market nationwide. The company's turnkey business phone service is easy to implement, cost effective, and delivers a complete range of powerful features. Our customer base of more than 100,000 business users includes such firms as IBM, Sun, and American Express, and our business partners include Office Depot and Costco Wholesale. AccessLine provides unprecedented service and application quality, functionality and customer support. AccessLine recently won the "Product of the Year" award from Internet Telephony Magazine, the "Pulver100" Award for top VoIP growth companies and the "Red Herring 100" award for the best 100 private companies in America.
