COMMANDANT'S GUIDANCE

DO NOT STAPLE THIS FORM

The completed fitness report is the most important information component in manpower management. It is the primary means of evaluating a Marine's performance and is the Commandant's primary tool for the selection of personnel for promotion, augmentation, resident schooling, command, and duty assignments. Therefore, the completion of this report is one of an officer's most critical responsibilities. Inherent in this duty is the commitment of each Reporting Senior and Reviewing Officer to ensure the integrity of the system by giving close attention to accurate marking and timely reporting. Every officer serves a role in the scrupulous maintenance of this evaluation system, ultimately important to both the individual and the Marine Corps. Inflationary markings only serve to dilute the actual value of each report. Reviewing Officers will not concur with inflated reports.

motivates everyone he comes into contact with. Major Rowe has done more to establish 3d MLG as key force provider to operations in Iraq and Afghanistan, with the training and deployment of three combat logistics battalions, an engineer support battalion and countless individual augments than any other individual. His background, personality and superb communications skills make him best suited to be a senior field grade planner at the MEF, HQMC or Joint assignment. I have had numerous one on one discussions with this officer and am convinced that he has what it takes to contribute at a higher grade. I enthusiastically recommend that he be promoted accordingly.
