

National Day Party

Disc 192 VTS –OI-O. IFO

The Speech.

Doctor Khyri Al Zubayde, Leader of the Republic of Iraqi Families in Washington.

Brothers and Sisters present,

We stand here today celebrating a very dear and prestigious occasion, which is the 30th Anniversary of the glorious National Revolution of July 17th (applause). A revolution ignited by our great Party, the Great National Baath Party (applause) led by the Champion of the Arab world our fighting Commander Saddam Hussein, may God keep him and protect him (applause).

This revolution was one of its kind for our great Arab world, especially after the failure of the August war and all the disappointment and the humiliation it faced at the hands of Zionism.

This revolution came as an answer for all persecutions and insults that were targeted against the Arab world and to further to put a stop against the devious Zionists plans to extort and destroy all the resources of our great Arab world.

My respectful attendees,

As you all know, this mammoth revolution of ours entered a number of civil battles, but especially our last battle, the great mother of all battles against the strongest of all the evil forces against our great nation. Despite all the sanctions against all Iraq, the Iraqi people stood tall and defiant against all the cowardly bombardment by air and land and against the cowardly rockets targeted around the great Iraq. The Iraqi people stood tall and defiant regardless of the

continuous, vicious, illegal and immoral sanctions that lasted more than six years to serve no purpose but that of trying to humiliate the Iraqi men and women, old and young, and its military power, but to their disappointment our people. The Iraqi people maintained their pride and dignity due to the great guidance of our great leader the great Saddam Hussein, may God keep him and guide him (applause), our people are still proud and resistant, he is still the Leader and Protector of Iraq and its great resources and will continue to fight for the Arab world, all of this against all Zionist ambitions trying to infiltrate the Arab world but sooner or later the Victory is ours.

Victory will be ours due to our belief in God, our belief in our people, our belief in the legal right to defend our sovereignty and our nation, and to protect ourselves against this dark cloud hanging over the skies of our Baghdad and its provinces to the North, South and Central Iraq.

And finally, we contest firmly and strongly against all the tactics and devious methods that the United States of America are trying to block and delay the removal of the continuous unfair sanctions against our people for their own political reasons so as to control the region and its surroundings. "But tomorrow will be soon upon us" (a proverb meaning "they will be proven wrong").

A heartily greeting to our beloved leader Saddam Hussein, may God keep him and guide him (applause).

The two other speakers were merely introducing the band.
