The emails clearly show your client's awareness of the language proficiency requirement prior to the signing of the September 25, 2005, contract.

There are other emails and correspondence but I believe both of us can acknowledge this answers the question as to your client's awareness of the language proficiency requirement.

Please call me to discuss.

Cordially,

Clyde,

The Subcontract is complete, but Peter and Paul are reviewing it before I send it out. Rob spoke to Mike Dodd yesterday and they ironed out the Statement of Work and pricing, so there shouldn't be too many obstacles in getting the Subcontract signed quickly. I'll get in touch with Mike to give him a heads up and an ETA for the Subcontract.

Thanks a lot,

Sarah

Mike,

This Sarah works with me. Sarah Meager is the one handling the Sub-contract agreement. I will check this afternoon and see where they are.

Thanks Sarah!! I just wanted to ensure State did not publish a proficiency test that must be passed. The level II demands are a little loosey goosey for interpretation (my opinion), but we'll have our TCN's ready to go.

Any word on the subcontract yet? I am doing what I can in anticipation of that, but obviously cannot go full bore until we have that finalized etc.

Warm regards,

3/10/2010

Mike

Good morning.

In response to the question regarding Language Proficiency, please refer to Exhibit H of the RFP, p 51-3 of Exhibits section. Several speaking levels (0-3) are described. In short,

**Speaking Level 0** (No proficiency) – “Unable to function in the spoken language.”  
**Speaking Level 1** (Elementary proficiency) – “Able to satisfy minimum courtesy requirements and maintain very simple face-to-face conversations on familiar topics.” (Examples are provided)  
**Speaking Level 2** (Limited Working proficiency) – “Able to satisfy routine social demands and limited work requirements.” (Examples provided)  
**Speaking Level 3** (General Professional Proficiency) – “Able to speak the language with sufficient structural accuracy and vocabulary to participate effectively in most formal and informal conversations on practical, social, and professional topics.” (Examples provided)

In MVM's Technical Proposal (page 3-39), we outline what speaking levels will be required for TCNs and LNs, as demonstrated on verbal and written language exams. TCNs will have a Level 2 proficiency; LNs serving as Interpreters will have a Level 2 proficiency as well (in our proposal we state that LNs serving as Guards will have a Level 1 proficiency, but in the Amendments, this is now one position – Guard/Interpreter. Need some clarification on which Level LNs need to be – all Level 2s?) All US positions require Level 3 proficiency.

Please let me know if you need any further information.

Thank you,

Clyde,

Just so we are on target here...

How are you / State qualifying Level II English? Is there an actual language proficiency test we can have our candidates take & pass etc. Please advise,

Mike

Mike,

I am looking at time lines this weekend. My best guess at this point is the process is in two parts 1) a Bio/Resume (2 pages) sent to DOS via MVM which they review and basically say the candidate meets the basic requirements, i.e. military, etc. This takes no more then a couple of days and 2) once we get the green light to go from step one we/you prepare/submit the clearance package. They believe this will take 30 to 45 days.

If we can get the sub-contract agreement by the end of next week I think you can start the processing. We are probably looking well into the middle of September before the first candidates are through the process and ready to deploy. That timing hit the elections in Afghanistan scheduled for the 18<sup>th</sup>. I am think it will be the first two weeks in October before we can put boots on the ground. I will provide you my first draft of the transition plan that I hope to have by the end of next week. Unfortunately it will be based on many unknowns. I hope this helps! More to follow.

P.S. I am starting to feel like I am back in a war room!

Clyde,

Thank you Sir!!

And I know you may not know this yet, BUT, do you have any idea when you would want the TCN's to start? e.g. TCN's approved by State by Sept 1st, TCN's depart country of origin Sept 15th, TCN training on site in Kabul Sept 17th, assume

posts Oct 1st etc.

I know the front end of our timeline will drive a lot of the back end, so I want to ensure my team over performs in everything we do.

Mike

Clyde,

Any idea who I could speak with at State (or anywhere else) who could connect me with companies that hire TCN's?? We have a ton of laborers, skilled technicians, IT folks all looking for opportunity.

Thanks,  
Mike
