*Re: Termination of employment with 3D Global Solution and threats of extortion*

Dear Mr. Joe Morris:

3D Global Solutions has retained our firm to represent them in the matter of your employment termination. From here on forward, all contact with 3D Global Solutions Inc., its agents, employees, principles and representatives must be addressed to me at the address below or by email at haytham@puckettfaraj.com.

I have reviewed your employment letter, the employee handbook and the basis for your termination. 3D also provided me with documentary evidence regarding payments of wages. Your demand for additional money is without merit and will not be honored. Moreover, your demand for payment or "I will be forced to expose what I feel are unscrupulous business practices by you" is extortion. Extortion –blackmail- is a criminal act. Your communication of it interstate across the internet makes is a federal crime. 3D takes your threats seriously. Such threats, or actions consistent with those threats, will not be tolerated.

Any actions to follow up on your threats or additional threats will be forwarded to your local U.S. Attorney for investigation and prosecution. I encourage you to immediately cease and desist from making further threats or from following up on your threats to blackmail 3D. Any statement that might defame the reputation of 3D among its clients or partners is a follow up on your extortion and is a criminal act. If you have any questions regarding this letter you may contact me at the number below.

Sincerely,

Haytham Faraj, Esq.
